

COOKIE POLICY

Explains what cookies are, which types we use, and how you exercise your choices. To be read together with the Privacy Policy.

Legal framework: Directive 2002/58/EC ("ePrivacy"), transposed in Romania by **Law no. 506/2004 on the processing of personal data and the protection of privacy in the electronic communications sector**, and, in your state of residence, by the corresponding national legislation, read together with **Regulation (EU) 2016/679 (GDPR)**.

1. What cookies are

Small files stored on your terminal equipment when you visit a web page. This Policy applies equally to similar technologies: local storage (localStorage, sessionStorage), pixels, tags and device identifiers.

2. What we use

The Platform **does not use analytics, marketing or functionality cookies** and does not display a consent banner, because it does not install anything that would require one.

Traffic statistics are collected through **Vercel Web Analytics**, without cookies and without identifying visitors.

3. Strictly necessary storage — no consent required

Item	Where	Purpose	Duration
Authentication session (Supabase)	localStorage / sessionStorage	keeping the account signed in	until sign-out
Preferences you have explicitly set (for example, hiding the parcel-creation guide, the number of projects per page)	localStorage	honouring the choice you made	until the data is cleared from the browser
Payment order in progress	sessionStorage	resuming the order after redirection to the payment processor	current session
Secure payment form (PayU)	processor cookies	payment security and fraud prevention	set by PayU

4. IP address and determination of the applicable tax regime

Independently of cookies, the IP address from which an order is placed is recorded as an element identifying the place of consumption, necessary for determining the applicable tax regime. This

processing is based on a legal obligation and **does not depend on your consent regarding cookies**. Details are set out in the Privacy Policy, Sections 2.2 and 3.

5. Third-party cookies and transfers

Certain cookies are installed by third-party providers, who may act as independent controllers. If they process data outside the European Economic Area, the transfer is carried out on the basis of the safeguards described in Section 7 of the Privacy Policy.

6. How you manage your choices

In your browser: you can block or delete cookies from your settings. Blocking the strictly necessary ones makes it impossible to sign in and place orders.

7. Automated preference signals

VERGO honours automated opt-out signals sent by the browser, to the extent they are technically implemented and legally recognised at the relevant time.

8. Changes

The version in force, with its update date, is permanently published at vergo.ro/legal/cookies.

9. Contact

office@vergo.ro — in Romanian or English.
